

Treasure basket

Collect a variety of safe objects from around the house—a spatula, a few colorful blocks, a soft toy or two, and a couple of plastic bowls, for example—and store them in a basket or box that is easy to reach. When you sit down with your baby, pull an object from the basket and describe what it is. Then let him explore what else is in the basket.

Bath time foam blocks

During bath time, float some brightly colored foam sponges or dense foam blocks on the water. Push them down beneath the water and exclaim with surprise as they pop back up. See if your baby can help you push the foam back down.
