

Apricot oatmeal

Prepare the apricot purée in advance so that the oatmeal is quick to make in the morning. If you don't have cooked apricot purée, purée some canned apricots instead.

For the apricot purée

- 3½ oz (100g) fresh or dried apricots
- 8½ fl oz (250ml) water

Put the apricots in a small saucepan and add the water. Cover with a lid, bring to a boil, reduce the heat, and simmer until the apricots are soft. Let cool slightly, then purée the fruit and liquid in a food processor, adding some cooled boiled water if required. Refrigerate once cooled.

For the oatmeal

- 2 oz (60g) oats
- 10 fl oz (300ml) whole milk

Put the oats and milk into a small saucepan and heat, stirring continuously. When the mixture thickens, remove from the heat. Keep one portion warm for yourself and cool your baby's portion to body temperature. Stir a tablespoon of apricot purée into each, and serve.
