

Share a special snack

Introduce healthy foods that you will all enjoy. You could make guacamole and share it with your baby. Keep a close eye on your baby as she gums or eats these foods. Any grown-up treats, such as sour cream or spicy salsa, can be added on the side for adults. Set them well out of reach of your baby.

- ❖ Scoop out the flesh of 2 avocados from their shells. Mash the flesh with 2 teaspoons of fresh lemon juice in a mixing bowl using a fork.
- ❖ Chop 1 tomato and add it to the avocado mix.
- ❖ Stir gently, and transfer to a shallow bowl.
- ❖ Toast some bread or pitas and slice into strips. Serve with steamed carrots, strips of red pepper, and cucumbers cut lengthwise.
