

Exploring the night sky

Your baby's understanding and interest in the world around her is growing. Just before bedtime, look outside at the night sky with your baby and show her the moon and the stars or—especially in spring and summer, when it might still be light out when she goes to sleep—use a picture book with pictures of the moon and stars. Explain what they are and repeat this traditional lullaby:

Twinkle twinkle little star,
How I wonder what you are.
Up above the world so high,
Like a diamond in the sky.

Twinkle twinkle little star,
How I wonder what you are.

Or try this this one:

I see the moon,
And the moon sees me,
As it floats so high
Over Mummy and me.

I see the stars,
And the stars see me,
As they shine in the sky
Above Daddy and me.
