

Sleepy stretches

Sit with your baby facing you so she can watch you and try to copy what you do as you say this rhyme and do the actions. Then repeat the words, helping your baby to try some of the stretches:

- ✿ Stretch up high, as high as a tree
(stretch your arms up above your head).
- ✿ Curl up as small as a buzzy bumble bee
(curl up, with your arms wrapped around your knees).
- ✿ Now we're feeling very sleepy
(make a big yawn).
- ✿ Relax your hands, relax your feet
(let your hands and your feet go limp).
- ✿ Close your eyes and let's
go fast to sleep
(put your hands together and rest them against the side of your head).
