

Floor art

If you don't have space to cover your floor in paper (see right), cut the shape of a baby from a large piece of cardboard, put it on the floor, and guide your baby's hand to make marks for a mouth, nose, eyes, and hair. Cut clothes from more card and let her scribble on them. She may want to help you pat down the clothes if you stick them in place with a dab of nontoxic, child-friendly glue. Talk about the person you are making as you play.
