

Hang a mobile

Buy or make a mobile and hang from the ceiling in your baby's nursery or sleeping area for him to look up at.

To make a homemade mobile, cut shapes—perhaps teddy bears, elephants, cats, balloons, clowns, and boats (traced from books if you want to use a template)—from brightly colored felt. Sew on any features with a needle and thread, and attach a string to the top of each shape. Open out a stripy toy umbrella and turn it upside down. Attach the loose end of each length of string to an umbrella spoke. Hang the umbrella mobile very securely from the ceiling, and make sure that your baby can't reach the umbrella or felt shapes from his crib.
