

The art of anticipation

Your baby is now at a great age to enjoy some interactive songs. The repetitive words and rhythms are good for her language development, and she will love anticipating the movements you make with her as you say or sing each rhyme. The actions will also help her use her limbs and improve her motor skills. Keep eye contact with her at all times so she can catch your sense of fun as she watches you.

Humpty Dumpty

Sit your baby on a soft surface, propping her up against some cushions if she needs support, and sit facing her, or sit her on your lap facing you. Hold her hands, or hold her under her armpits, and as Humpty falls, let her lean back gently while keeping hold of her.

Humpty Dumpty sat on a wall,
Humpty Dumpty had a great fall.
All the king's horses and all the king's men
Couldn't put Humpty together again.
