

291 Create sunflower people

1
HR

Fill your yard with sunflower people and bring a smile to your borders. Turn paint cans into bodies and pick out a face when the seed heads form for some fantastic and friendly plants.

What you need

- Old paint cans with holes in the bottom
- Paint
- Soil
- Markers or pens
- Gravel
- Plastic bags with holes in the bottom
- Sunflower seeds

1 Draw or paint "bodies" on the cans. When dry, line cans with a bag. Add a layer of gravel, then fill with soil. Plant a seed $\frac{1}{2}$ in (1 cm) deep in each. Water well.

2 Put a plastic bag over each can, but remove the bags when leaves appear. When flowers form, remove all flowers except the top one.

Remove seeds to make a face

292 Harvest sunflower seeds

20
MINS

Wait until the petals start to drop and the seeds start to loosen. Cut off the flower heads and rub the seeds with your hand. Dry them before storing.
