

073 Decorate your garden with butterflies

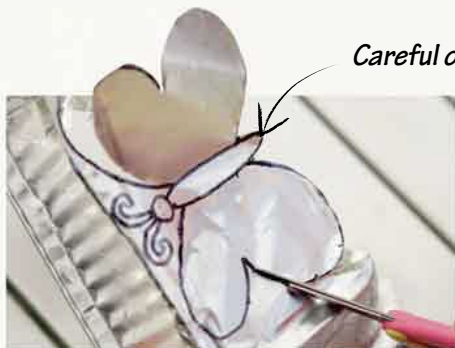

40
MINS

Gardening isn't all about plants. It's a chance to have fun and be creative, too. Make these colorful foil butterflies and add some sparkle to garden borders.

What you need

- Clean foil containers
- Scissors • Black and colored markers
- Ballpoint pen • Glue
- Wooden skewers

Careful of sharp edges!

1 Use a black marker to draw your butterfly design on the bottom of a container. Cut out the design with a pair of scissors.

2 Press a ballpoint pen head into the design to make a raised pattern. Add color using the colored markers. Let dry.

3 Put glue on a stick and press down until it's secure. Let it dry. Find the best place in your garden to show off your artwork!

074 Make pebble pets

25
MINS

Gather some pebbles and wash them. Glue small pebbles to larger ones to make frogs and pigs. Use felt ears and a string tail to make a mouse. Paint them and add googly eyes.
