

099 Make a mistletoe ball

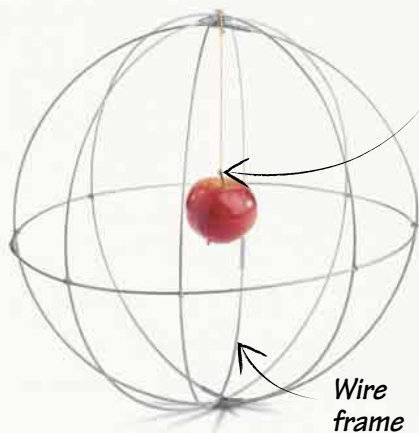

1
HR

Ivy and mistletoe are traditional Christmas decorations that will look fantastic in this “kissing ball.” You can probably find ivy in the yard and buy mistletoe at a garden center.

What you need

- Floral wire
- Ivy • Mistletoe
- Apple • Ribbon
- Red mini ornaments
- Duct tape

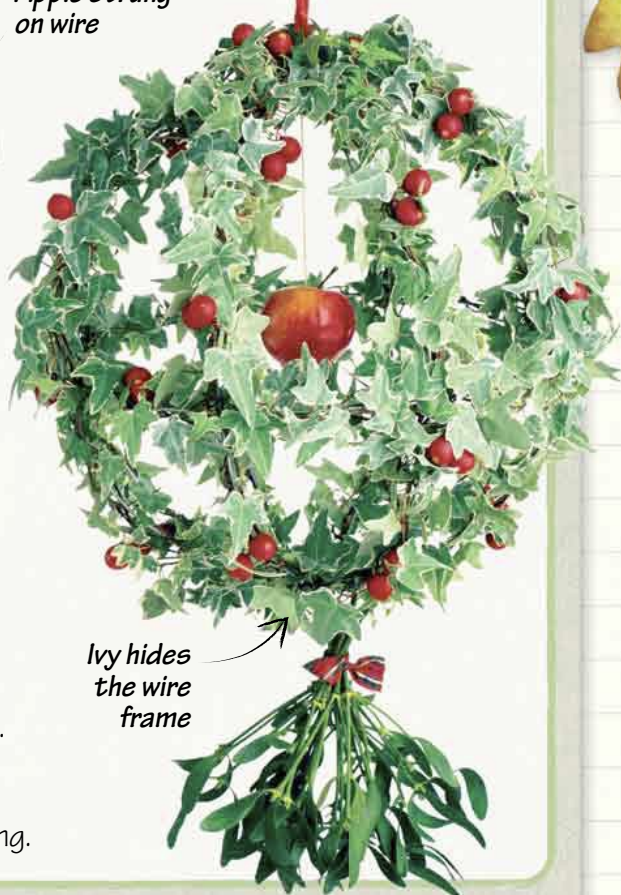

Apple strung on wire

Wire frame

1 Ask an adult to help you make a sphere out of the floral wire. Either twist or tape the wires together.

2 Suspend the apple in the center of the sphere on a separate wire. Push it through the apple and twist to hold. Weave ivy all through the sphere. Add mini ornaments if you like. Attach a bunch of mistletoe to the bottom, add ribbons, and hang.

Ivy hides the wire frame

100 Make a festive bough

30
MINS

Find a bare branch from the yard and ask an adult to help you spray-paint it silver. Suspend it from wire over a doorway. Hang lightweight decorations on it for some added Christmas cheer.

Make it look festive
