

Running stitch

You've threaded your needle—now it's time to make your first **stitch**! Running stitch is the easiest.

Sew the first stitch

Thread your needle and knot the end of the thread. Push the needle through the fabric, dragging the thread through to the other side until the knot stops it.

Up and down

One stitch length along, push the needle back through the fabric to the other side.

Running stitch in a contrast color looks cool!

Finishing

Make a knot

To finish, make a knot at the end of your sewing by twisting the thread to make a loop, then pulling the needle through it.
