

2 layers of felt

Make the templates

Trace the templates on page 60 onto construction paper and cut them out. Pin the body shape onto two layers of felt and cut around the shape.

Make the ears

Use the ear template to cut out two ears in fabric and two in felt. Pin each fabric ear to a felt ear and sew, leaving the flat edge open.

Ears
cut 2 fabric
cut 2 felt

Make two ears.

Attach the tail, sew closed, and add eyes

With the tail in place, sew up the gap to close. Glue an eye on each side.

Cut a short piece of yarn for the tail and make a knot at the end.

Don't forget to add my googly eyes!
