

Repeat this step.

Sew on the ears

Sew the straight edge of the ear to the elephant's head. Repeat on the other side with the other ear.

Sew closed and add filling

Using running stitch, sew the two pieces of the elephant together, leaving a space to add stuffing. Fill with soft-toy stuffing, pushing it into the legs with your fingers.

Flappy ears

If you make the ears with one side in fabric and the other in felt, they'll stay upright.

Make me soft and cuddly with a squishy filling.
