

Using the top end

Cut off the foot

Cut the sock just above the heel. You only need the top part of the sock for your carrier.

The sock is inside out.

Sew the end

Turn the sock inside out. Sew up the cut end of the sock using backstitch.

Top tip
Recycle any leftover socks. You can cut them into rings to use as cool hair ties.

Using the toe end

Make a decoration

Trace the templates on page 62 onto construction paper and cut them out. Pin them to felt, then cut out the shapes.

Cut the top off the sock

Cut the sock to the required size. Place the felt flower on the felt circle and sew on a button.
