

Make Barney bear

Make Barney smile!

Cut out the pieces

Trace the templates on page 63 onto construction paper and cut them out. Pin the head, muzzle, eyes, and nose onto felt and pin the ears onto furry fabric. Cut out all the shapes.

Sew the nose and mouth

Sew a nose onto the muzzle with running stitch. For his mouth, stitch over your pencil marks in backstitch.

Top tip

Sew lots of stitches over each other to hold the strap firmly in place.

Sew the bag together

Pin both pieces of the bag together with the ears in position. Cut a piece of ribbon for the strap and pin it in place, too. Sew around the edge with running stitch.
