

Top tip

Make a patterned mane for a plain sock, and a plain mane for a jazzy sock.

Overlap the pieces of mane on each side of the neck. Pin along the dotted line.

Shape the ears by **placing one cut side** over the other.

Pin the mane pieces along the middle of the neck so that they **hang down each side**.

3 Add the filling

Use soft-toy filling to stuff the sock. Push it to the end with your finger, or use a pencil.

4 Pin on the ears, forelock, mane, and noseband

Pin on the ears, the forelock between the ears, and the pieces of mane on the neck. Wrap the noseband around the nose and pin.

Sew along these dotted lines.

8 Add the stick

Push the stick in the sock, then tie firmly with a piece of string.

7 Attach the mane and forelock

Sew the mane and forelock to the head with running stitch to hold them firmly in place.

We're the winners!
