Idaho

In the middle of Idaho sits the monumental Salmon Mountain Range with the Snake River Plain curving from east to west beneath it. In addition to amazing landscapes, Idaho is famous as the birthplace of the brave explorer Sacagawea, and it's also the land of potato farming.

Idaho's state capitol building is heated by underground hot springs.

In Idaho, you can buy an ice cream sundae that looks like a potato!

Potato power

One-third of the potatoes grown in the US come from right here in Idaho, so it's no wonder Idahoans are proud of their potatoes. They love to celebrate the potato in all kinds of way, from the potato-shaped hotel to a potato museum!
