

99 percent of the blueberries in the US come from Maine.

Portland Head Light, Maine's oldest lighthouse

Lobsters are sometimes called "bugs" by Mainers.

Lobster life

Maine is famous for the lobsters that live on the ocean floor along the coast. They come in many different colors, but they only turn red when cooked. These weird and wonderful creatures can live to be over 100 years old.

Rocky coast

Maine's coast can be a dangerous place for ships—in the dark night, they might end up crashing into the jagged rocks along the coastline. That's why Maine's lighthouses are so important. They help to light the way for ships and prevent dangerous shipwrecks.
