

State Facts

Abbreviation: WV

Capital: Charleston

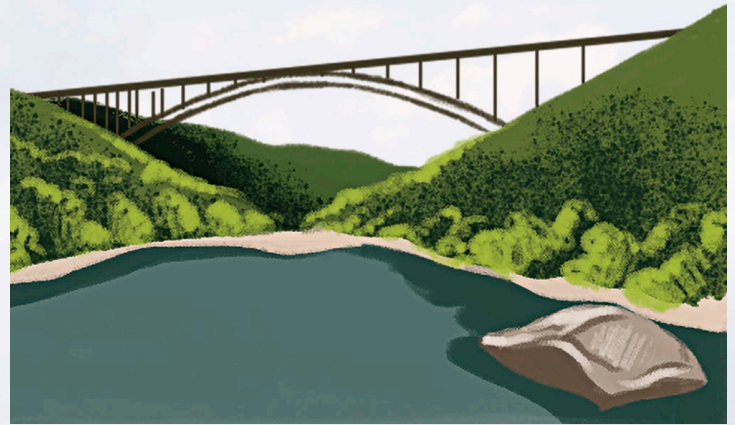

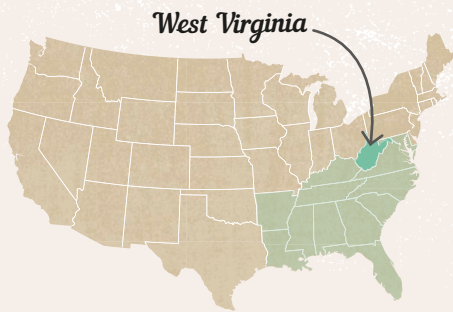

Nickname: The Mountain State

Statehood: 1863, 35th state

Population: 1.8 million people

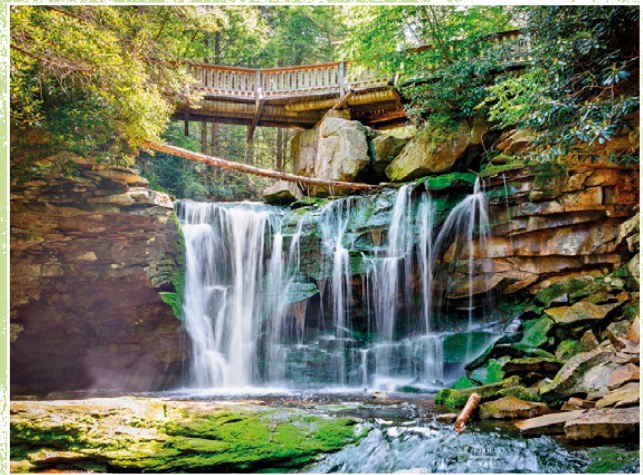

State flower: rhododendron

State bird: cardinal

New River Gorge Bridge

One landmark sits high above the natural landscapes of West Virginia. The New River Gorge Bridge is the largest steel arch bridge in the eastern United States.

Some of the other waterfalls in this area are Elakata Falls and Pendleton Falls.

Blackwater Falls State Park

There are many waterfalls in Blackwater Falls State Park, but the "Great Falls" drops down 62 feet (19 meters). That's taller than a 6-story building! Some popular park activities include mountain biking, fishing, and hiking the miles of beautiful trails.

West Virginia has four state songs. They really love their music here!
