

Virginia

Lush mountains, deep river valleys, and coastal plains stretch up and down Virginia. Indigenous people, such as the Powhatan, lived on this land for thousands of years before British colonists arrived in the 1600s. Nearby, the District of Columbia, Washington, D.C., is the nation's capital.

Powhatan history

Wahunsenacawh was a respected leader in the Virginia region in the early 1600s. He led the Powhatan people and formed a strong union with many other tribes. Wahunsenacawh worked to build peaceful relations between Indigenous tribes and the European settlers.

The beautiful cherry trees in Washington, D.C., were a gift from Japan.

State Facts

Abbreviation: VA

Capital: Richmond

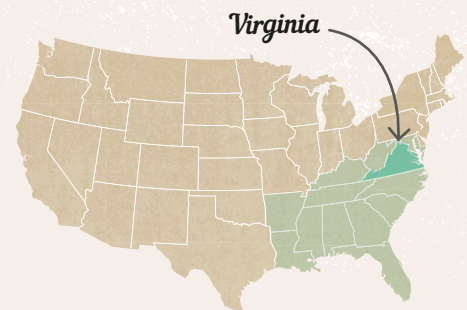

Nickname: The Old Dominion State

Statehood: 1788, 10th state

Population: 8.5 million people

State flower: American dogwood

State bird: cardinal

These huts are re-creations of old Powhatan homes (yehakins) from the 1600s, like the ones Wahunsenacawh would have lived in.
