

Peaches are a part of the rose family. No wonder they smell so sweet!

Georgia peaches

Bite into a juicy, sweet Georgia peach, and you'll know how Georgia got its nickname! Georgia is one of the country's top peach producers. There are more than 40 different kinds of Georgia peaches.

Spanish moss

Ghostly looking Spanish moss grows on live oak trees in southern Georgia. The moss gets most of its water from the air and can live for three months without rain!

The state butterfly of Georgia is the Eastern tiger swallowtail.
