

The Space Coast

The Space Coast is where NASA—National Aeronautics and Space Administration—launched the first spaceflight to land on the moon. Today, it's rare to see rockets launch from Cape Canaveral, but you can still visit the Kennedy Space Center to see real spacecraft.

Fun in Florida

Millions of visitors from around the world come to Florida every year. It's famous for its beautiful beaches, cool culture, and theme parks like Walt Disney World Resort® and Universal Orlando Resort™.

*The name
Florida is a
Spanish word that
means "full
of flowers."*

*Florida has the second
longest coastline in the
country, after Alaska.*
