

Jazz

Upbeat and soulful, jazz music was developed when musicians in Louisiana began mixing together different music styles. Jazz is now loved throughout the world. Improvisation (making up the music as you go), is an important part of playing jazz.

Beignets

Louisiana is famous for its food. Try a sugary beignet for breakfast!

The state bird, the brown pelican, is on the state flag and in the state nickname.

New Orleans

New Orleans is an exciting city, with great food, culture, and history. The city was founded in the 1700s, and the oldest buildings look like the French, Spanish, and Caribbean architecture from that era. It gives New Orleans a unique look!
