

Motown

Founded in 1959, Motown Records in Detroit, Michigan, is famous for producing super-catchy music by artists like Diana Ross and the Supremes. The “Motown Sound” inspired the entire world and influenced the way that music has been made ever since.

The Great Lakes

The Great Lakes form the largest freshwater system in the world. The five lakes are called Superior, Huron, Michigan, Erie, and Ontario. Michigan is bordered by four of these lakes, so it's a perfect place to go fishing, boating, or just enjoy the breathtaking and tranquil beauty of the Great Lakes region.
