

*The Grand Canyon,
Arizona*

The Statue of Liberty, New York

Amazing places

The United States is a land of natural wonders and intriguing wildlife from coast to coast—and even beyond, in the noncontiguous states and US territories. To match the country's amazing natural beauty, you'll also find iconic landmarks.

*An orca in the Lynn
Canal, Alaska*

Always changing

The way that society has developed in the United States hasn't always been fair to every group of people—and it still isn't. But it is a land of constant change. People are always working to make the country and the world a better place for all. People are also free to talk about problems and stand up for what they believe in.

*This march is about
protecting the environment.*
