

*George Washington Carver
also loved to paint,
especially flowers.*

Peanuts

George Washington Carver

George Washington Carver was a talented scientist and inventor who went to school in Kansas. He developed new ways to help farmers increase their crops and discovered more than 300 ways to use peanuts, including cooking oil, paper, and medicines!

Tornadoes

Tornadoes twist and turn throughout Kansas every year. Kansas and a few other states are located in a region known as "Tornado Alley" because dangerous whirlwinds are so common here. Tornadoes form when hot and cold air mix together in the atmosphere. The air becomes unstable and...whoa! Watch out!

*Tornado winds
can reach up to
480 mph (772 kph).*

Amelia Earhart

Fearless and free-spirited, Amelia Earhart made history as the first woman pilot to fly an airplane solo across the Atlantic Ocean. She also wrote books about her life.
