

Up to 1.5 million bats live at the bridge every summer.

Famous bridge bats

We usually think of animals hiding in the forests, but amazing wildlife can also be found in big cities. In Austin, the Ann W. Richards Congress Avenue Bridge is the summer home for the biggest urban bat colony in the world.

Texas has lots of wind turbines that produce renewable energy from wind.

Cowboys

Cowboys and cattle ranching are very old parts of Texas history. The tradition came from Mexican cowboys, called *vaqueros*. The *vaqueros* taught Texans how to be cowboys. Cowboy hats have wide brims to help block some of the harsh heat of the hot Texas sun.

Cowboys are so important in Texas culture and history that rodeo is the state sport.
