

Time filler:

What is 30% of £1 500?

Remember: 30% is the same as $\frac{30}{100}$.

So divide £1 500 by 100 and multiply by 30.
It is sale time. Calculate 20% of £80, 40% of £200, and 60% of £45.50.

- ⑥ Multiply each number by 1 000:

7

82

146

150

- ⑦ How many grams are there in 7.2 kg?

- ⑧ How many pence are there in £35?

- ⑨ A plane flies at a height of 10 668 m.
What is this height in kilometres?

- ⑩ A colony of army ants has 700 000 ants. As the ants cross a river, 20% of the colony dies. How many ants make it across?

ants
