

Time filler:

Say the 3x table to a rap beat. Singing the times tables helps to learn them. Try saying them to your own musical beats.

109

- 6 Divide each number by 3:

6

15

24

36

45

- 7 How long will it take Anita to save 42 p if she saves 3 p every week?

weeks

- 8 Work out these division sums:

$$\begin{array}{r} \square \\ 3 \overline{)60} \end{array}$$

$$\begin{array}{r} \square \\ 3 \overline{)90} \end{array}$$

$$\begin{array}{r} \square \\ 3 \overline{)72} \end{array}$$

$$\begin{array}{r} \square \\ 3 \overline{)99} \end{array}$$

$$\begin{array}{r} \square \\ 3 \overline{)183} \end{array}$$

- 9 Pablo was paid £3 for each car that he washed. He earned £39 in one week. How many cars did Pablo wash that week?

cars

- 10 How many shapes are there in each group?
