

Time filler:

Another way to work out the answer to 4 times a number is to multiply the number by 2 and then its answer by 2 again. Choose some numbers between 1 and 20 and give this a go.

- ⑥ Divide each number by 4:

0 4 16 36 48

- ⑦ Jeff buys a pack of 4 pencils. The pack costs £1.68.
How much does 1 pencil cost?

- ⑧ Work out these division sums:

$$\begin{array}{r} \square \\ 4 \overline{)56} \end{array}$$

$$\begin{array}{r} \square \\ 4 \overline{)96} \end{array}$$

$$\begin{array}{r} \square \\ 4 \overline{)100} \end{array}$$

$$\begin{array}{r} \square \\ 4 \overline{)128} \end{array}$$

$$\begin{array}{r} \square \\ 4 \overline{)284} \end{array}$$

- ⑨ A box contains 24 chocolates. They are laid out in 4 equal rows.
How many chocolates are there in each row?

 chocolates

- ⑩ How many shapes are there in each group?
