

Time filler:

Another way to work out or check the answer to $7 \times$ a number is to multiply the number by 5, multiply the same number by 2 and then add the two answers. For example: $9 \times 7 = (9 \times 5) + (9 \times 2) = 45 + 18 = 63$. Choose a number between 1 and 20 and give this a go.

- 6 Divide each number by 7:

0 21 49 77 98

- 7 Seven books cost £35.84 altogether. If each book was the same price, what was the price of 1 book?

- 8 Work out these division sums:

$$\begin{array}{r} \square \\ 7 \overline{)84} \end{array}$$

$$\begin{array}{r} \square \\ 7 \overline{)140} \end{array}$$

$$\begin{array}{r} \square \\ 7 \overline{)105} \end{array}$$

$$\begin{array}{r} \square \\ 7 \overline{)133} \end{array}$$

$$\begin{array}{r} \square \\ 7 \overline{)224} \end{array}$$

- 9 Share 42 chairs equally around 7 tables.
How many chairs will you keep around each table?

 chairs

- 10 How many shapes are there in each group?
