

Tip for grown-ups

Find opportunities to say the 2 times table together. Give it a try while pairing up socks, walking up the stairs, or passing houses in the street.

All the answers in the $2 \times$ table are called "multiples" of 2.

$2 \times$

$$1 \times 2 = 2$$

$$2 \times 2 = 4$$

$$3 \times 2 = 6$$

$$4 \times 2 = 8$$

$$5 \times 2 = 10$$

$$6 \times 2 = 12$$

$$7 \times 2 = 14$$

$$8 \times 2 = 16$$

$$9 \times 2 = 18$$

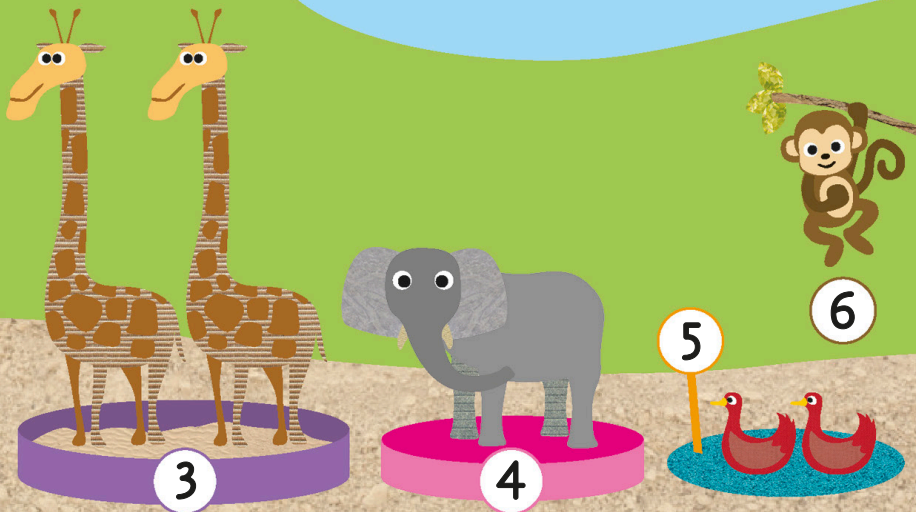

$$10 \times 2 = 20$$

$$11 \times 2 = 22$$

$$12 \times 2 = 24$$

$$2 \times 6 = \underline{\quad}$$

How many legs do 6 flamingos have?

There are 3 pairs of flamingos.
