

In the sky with the fives

When you count in 5s, every other number ends in 5.
All of the numbers in between end in a 0.

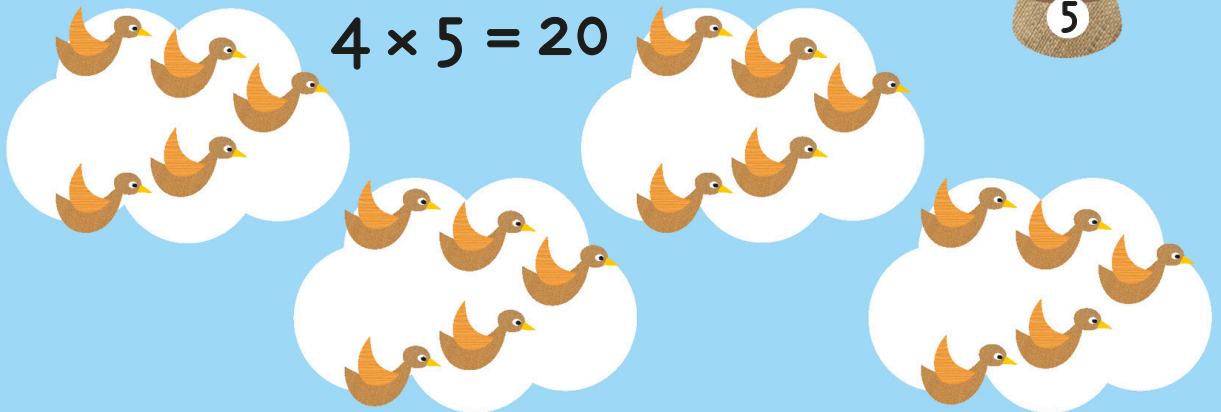

5 10 15 20 25 30 35 40 45 50...

There are 5 birds
flying in this flock.

How many birds are
flying in 4 flocks?

$$4 \times 5 = 20$$

Numbers in
the 5 times table
end with either
a 5 or a 0.
