

Speed trials

You should know all of the times tables by now, but how quickly can you remember them?

Ask someone to time you as you do this page.

Remember, you must be fast but also correct!

$6 \times 8 = \square$

$9 \times 12 = \square$

$5 \times 8 = \square$

$7 \times 5 = \square$

$6 \times 4 = \square$

$8 \times 8 = \square$

$5 \times 11 = \square$

$9 \times 8 = \square$

$8 \times 3 = \square$

$7 \times 7 = \square$

$9 \times 5 = \square$

$4 \times 8 = \square$

$6 \times 7 = \square$

$2 \times 9 = \square$

$8 \times 4 = \square$

$7 \times 12 = \square$

$2 \times 8 = \square$

$4 \times 7 = \square$

$6 \times 9 = \square$

$9 \times 9 = \square$

$4 \times 8 = \square$

$9 \times 8 = \square$

$6 \times 6 = \square$

$8 \times 9 = \square$

$6 \times 4 = \square$

$7 \times 3 = \square$

$5 \times 9 = \square$

$6 \times 8 = \square$

$7 \times 7 = \square$

$6 \times 9 = \square$

$7 \times 8 = \square$

$8 \times 4 = \square$

$0 \times 9 = \square$

$10 \times 12 = \square$

$7 \times 6 = \square$

$8 \times 7 = \square$

$9 \times 6 = \square$

$8 \times 6 = \square$

$11 \times 9 = \square$

$6 \times 7 = \square$

$8 \times 12 = \square$

$7 \times 9 = \square$

$8 \times 5 = \square$

$8 \times 7 = \square$

$7 \times 4 = \square$

$4 \times 9 = \square$

$6 \times 7 = \square$

$4 \times 6 = \square$

$7 \times 8 = \square$

$6 \times 9 = \square$

$11 \times 8 = \square$

$6 \times 5 = \square$

$8 \times 8 = \square$

$7 \times 6 = \square$

$6 \times 8 = \square$

$9 \times 10 = \square$

$8 \times 4 = \square$

$7 \times 11 = \square$

$5 \times 8 = \square$

$8 \times 9 = \square$
