

1x

Here's the 1 times table:

$$1 \times 1 = 1$$

$$2 \times 1 = 2$$

$$3 \times 1 = 3$$

$$4 \times 1 = 4$$

$$5 \times 1 = 5$$

$$6 \times 1 = 6$$

$$7 \times 1 = 7$$

$$8 \times 1 = 8$$

$$9 \times 1 = 9$$

$$10 \times 1 = 10$$

$$11 \times 1 = 11$$

$$12 \times 1 = 12$$

Read the answers
to the one times table.
You will be counting
from 1 to 12.

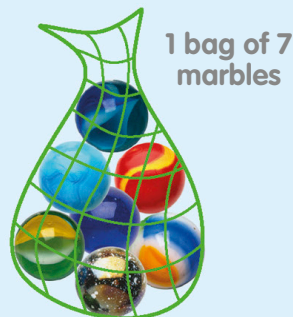

The one times table

When you multiply by one, the answer is the same as the number you started with. Nothing changes.

Just one lot of...

Multiplying by one means the same as having one lot of something.

For example, **1** bag of **7** marbles.
How many marbles? **7**.

1 bag of 7 marbles

How many?

1 net of **3** fish.
How many fish?

1 flower with **6** petals.
How many petals?

1 basket with **12** apples.
How many apples?

1 purse with **7** coins.
How many coins?

The one times mirror

Multiplying a number by **1** is like putting it in front of the mirror.
You see the same thing again.

So, **8** $\times$ **1** = **8**.

8
