

PLANET DATA	
DIAMETER	4,213 miles (6,780 km)
AVERAGE DISTANCE FROM SUN	141.6 million miles (227.9 million km)
ORBITAL PERIOD	687 Earth days
ROTATION PERIOD	24.6 hours
SURFACE TEMPERATURE	-193 to +77°F (-125 to +25°C)
NUMBER OF MOONS	2

Giant features
A complex system of canyons, the Valles Marineris, slices Mars's surface and runs for more than 2,500 miles (4,000 km). The three dark spots on the left are giant volcanoes on the Tharsis Bulge.
