

Acknowledgments

Dorling Kindersley would like to thank Heather McCarry for design consultancy and David Hughes for his contribution to the sections on Mercury, Venus, and the Moon. The planisphere artwork and the star charts on pp.20–21 were produced by Giles Sparrow and Tim Brown.

Sands Publishing Solutions would like to thank Hilary Bird for compiling the index and Robin Scagell for his assistance with images.

Photography credits

The publisher would like to thank the following for their kind permission to reproduce their photographs:

BATTERY INFORMATION FOR NIGHTLIGHT FLASHLIGHT (R-1001A)

Use 4 x LR41 1.5 V alkaline button cell batteries. Insert the batteries in the correct polarity. Rechargeable batteries are not to be used. Different types of batteries or new and used batteries are not to be mixed. Exhausted batteries should be removed from the product. The supply terminals should not be short-circuited. Only the recommended batteries or their equivalent should be used. Do not dispose of batteries in fire. Remove batteries before storage. Retain this information for future use.
