

Addition

Addition is usually the first type of maths we learn. When adding numbers, it doesn't matter what order they are in, the answer will be the same.

This plus sign means add the two numbers together.

+

=

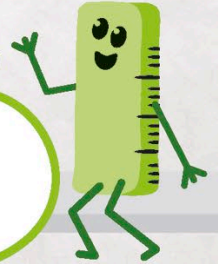

This is the answer.

The equals sign means that the sum and the answer are the same.

The equals sign was first used about 500 years ago.

Subtraction

To subtract means to take away or make smaller. You have to take the second number away from the first number to get the answer.

This is called the minus sign.

-

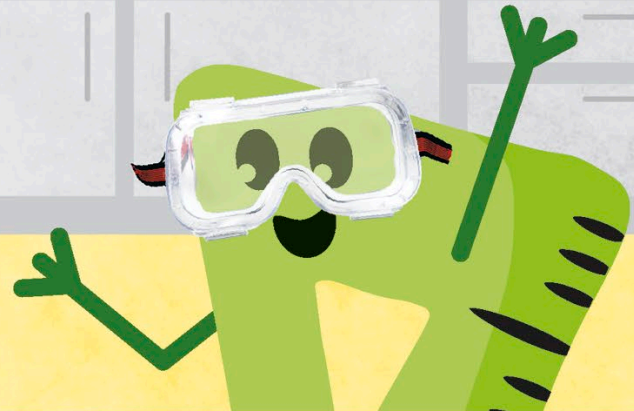

=

This is the answer.

2nd place is the silver medal position.

2nd

The winner of the race comes in 1st place.

1st

Sports events reward 3rd place, too.

3rd

Positions

Ordinal numbers tell you about the position, order, or sequence of something. 1st, 2nd, and 3rd are examples of ordinal numbers.
