

Uddiyana bandha

Uddiyana bandha involves engagement of the abdominal muscles to pull the belly in, and diaphragm up, with the exhale, and often incorporates a breath hold. In this pose, you are only doing a subtle version of this, but drawing your abdominals in and up while still breathing.

Mula bandha

Mula means "root" in Sanskrit; this *bandha* involves a pelvic floor engagement. When your transversus abdominis or "corset muscles" engage, your pelvic floor also naturally engages. Notice if you feel a lift (in this case, horizontally) in your pelvic floor, particularly with your exhales. This is soft and subtle; don't squeeze.
