

LYMPHATIC SYSTEM

The lymphatic and immune systems work together to fight invaders. Acute inflammation can be a helpful result of this internal war, such as when you have a cut. However, chronic inflammation is an underlying cause of many major diseases.

SYSTEM OVERVIEW

Lymph vessels collect and drain excess fluid from body tissues. They also carry immune cells around your body. Evidence suggests that yoga can help reduce chronic inflammation and it may boost immunity, helping you get sick less often and less intensely. Your body can heal itself, and yoga can help.

Lymph node

These are checkpoints that screen lymphatic fluid for foreign invaders. The cleaned fluid is returned to your blood. Movement in yoga asanas, particularly from sun salutations and inversions, can help facilitate lymph flow.

Tonsils

Help destroy bacteria or viruses that enter the nose or mouth

Thoracic duct

Lymph drains back into the heart through here

Axillary nodes

A concentration of lymph nodes under the arm

Spleen

Produces cells that fight infection

Cisterna chyli

Collects lymph from the lower half of the body

Inguinal nodes

A concentration of lymph nodes around the groin

Lymph node

Lymph is processed and cleaned here

Lymph vessel

Drains and transports lymph
