

Pressure and balance

Notice and feel the point of contact of your body on the floor in this pose. It is a little different for everybody. Notice how the pressure points shift as you transition in and out of the pose.

Posterior deltoid stretches and engages to help externally rotate shoulder

Erector spinae stretch on the upper side

Elbow flexors engage

If hands don't reach foot, place one hand on your shin and reach the other out and over toward it

Ankle dorsiflexors engage to flex your ankle

Erector spinae engage on the lower side
