

Visual guide

Gold, page 6
Group: Element
Mohs hardness: 2.5-3
Made from: Gold

Gypsum desert rose, page 8
Group: Mineral
Mohs hardness: 2
Made from: Calcium, sulphur, oxygen, and water

Malachite, page 10
Group: Mineral
Mohs hardness: 3.5-4
Made from: Copper, carbon, oxygen, and hydrogen

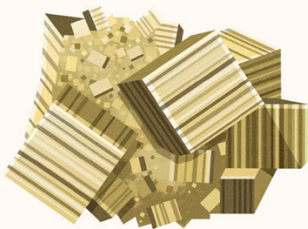

Fluorite, page 12
Group: Mineral
Mohs hardness: 4
Made from: Calcium and fluorine

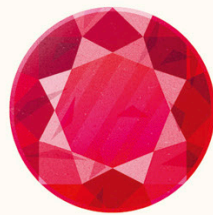

Precious opal, page 14
Group: Mineral
Mohs hardness: 5-6
Made from: Silicon, oxygen, and water

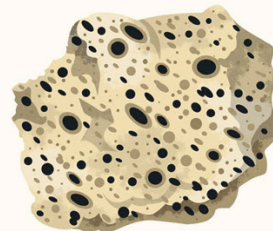

Turquoise, page 16
Group: Mineral
Mohs hardness: 5-6
Made from: Copper, aluminium, potassium, oxygen, hydrogen, and water

Pyrite, page 18
Group: Mineral
Mohs hardness: 6-6.5
Made from: Iron and sulphur

Ruby, page 20
Group: Mineral
Mohs hardness: 9
Made from: Aluminium and oxygen

Pumice, page 22
Group: Igneous rock
Made from: Glass

Sandstone, page 24
Group: Sedimentary rock
Made from: Quartz and feldspar

Marble, page 26
Group: Metamorphic rock
Made from: Calcite

Ammonite, page 28
Group: Fossil
Location: Worldwide

Amber, page 30
Group: Organic mineral
Made from: Resin
