

Selfie Props

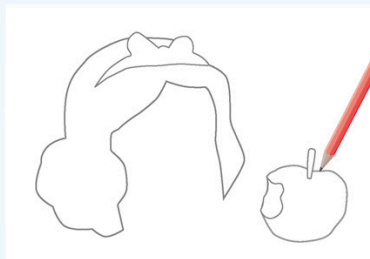

Pose as your favourite Disney hero – or villain – with a collection of fun selfie props. Create some fabulous accessories, gather your friends and make your own photo booth. Lights, camera, action!

You will need:

- White paper
- Scissors
- Pencil
- Glue
- Coloured paper
- Wooden dowels
- Cardstock
- Clear tape

Make your props

These selfie props are made from coloured paper stuck onto cardstock to make them more rigid. Each one has a wooden dowel to hold onto.

1 Choose which characters' accessories you want to make – or design your own.

2 Sketch your picture to figure out the shapes you need.

3 Draw each shape on the correct coloured paper.

Cinderella's hair with a tiara and earring

Snow White's hair and red bow

Cinderella's glass slipper

Act the part! What would your expression be if you'd just bitten this poisoned apple?
