

# Salt-Dough Necklace

Pocahontas's father gives her a special necklace when she is due to marry. In fact, it marks the start of a very different life for her. Craft one like it to wear for adventures of your own.

## Make the dough

This simple mixture is easy to mould into any shape. It goes completely hard when it's cooked.

- 1 Preheat the oven to 100°C (225°F).

## You will need:

- 100 g (3½ oz) plain flour
- 100 g (3½ oz) salt
- 65 ml (¼ cup) water
- Mixing bowl
- Blunt knife
- Drinking straws
- Baking sheet
- Oven
- Acrylic paint
- Paintbrush
- Needle and cord
- Scissors

- 2 Mix the flour, salt and water, and knead the dough with your hands until it forms a smooth mixture.

## Shape and bake

Pocahontas's necklace is made from four wide beads and a diamond-shaped bead with a decorative piece on top.

- 1 Cut the dough into five pieces. Shape four of them into wide beads.

- 2 Using a straw, make a hole in each wide piece. Keep the straws in place for now.

- 3 With the fifth piece of dough, make a diamond shape with a long, thin strand to wrap around the cord.

- 4 Add a smaller, flat diamond shape of dough on the pendant for decoration.

Squeeze these pieces together, or use water, to make them stick.

- 5 Bend the pendant's long strand around a straw, making a loop.

- 6 Remove straws and place all of the shapes on a baking sheet.

- 7 Bake the dough in the oven for 2 hours.

## Thread the necklace

Once your beads have cooled, you can paint them "all the colours of the wind"... but turquoise would match Pocahontas's necklace!

- 1 Paint thin layers of acrylic paint on each bead until you have a strong, solid colour.

Try pale grey for the pendant.

- 2 Wait until each layer has dried before adding the next.

- 3 Measure the cord so the necklace will fit over your head. Cut the cord to the right length, allowing an extra 10 cm (4 in) for tying.

- 5 Tie the cord in a knot.

- 4 Thread the cord through the beads. You could use a thick needle to help.

**TOP TIP**  
Salt dough is great for crafting, but not for eating!
