

## Seven Dwarfs Pins

Snow White's friends are in a playful mood – so they make the perfect pins! See if you can knock them down with a red poisoned apple in this fun bowling game.

### You will need:

- 7 cardboard tubes
- Coloured felt
- Scissors
- Craft glue
- Clear tape
- Gold cardstock
- Small freezer bags
- Felt-tip pens
- Uncooked rice
- Cotton thread
- Paint and paintbrush
- Tennis ball

### Prepare your Dwarf

A cardboard tube weighted down with rice makes each Dwarf's bowling-pin body.

1 Cut seven slits, each 3 cm (1 in) tall, spacing them evenly around the base.

2 Fold the cut pieces into the middle.

3 Use tape to stick each piece down.

4 Check that your tube can stand up and adjust it if necessary.

5 Paint the top 5 cm (2 in) pale pink for the Dwarf's face.

6 Half fill a freezer bag with rice to weigh down the pin.

### Dress your Dwarf

Cut felt pieces in different colours to decorate your Dwarfs.

Coat

Feet

Belt

Arms

Hat

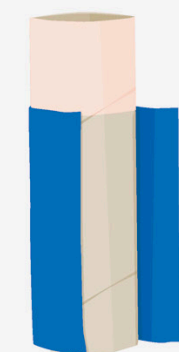

Beard

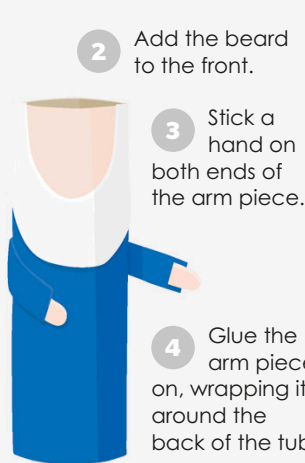

Hands

Nose

1 Wrap the coat piece around the tube and glue the overlap at the back.

2 Add the beard to the front.

3 Stick a hand on both ends of the arm piece.

4 Glue the arm piece on, wrapping it around the back of the tube.

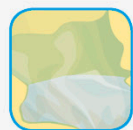

5 Glue the belt on top of the coat.

6 Cut buckles from gold cardstock and stick them onto the belts.

7 Stick two feet at the bottom.

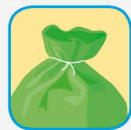

Make the base as flat as possible to help the Dwarf to balance.

8 Put the bag of rice inside the tube.

9 Glue the rectangular hat piece around the top.

10 Gather the material to seal the hat and fasten with thread.

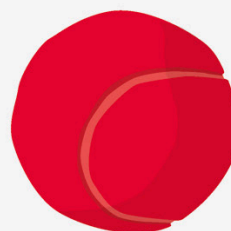

11 Glue on the round nose piece.

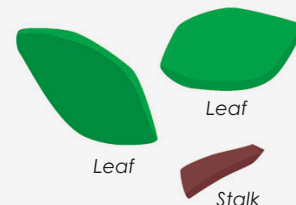

12 Draw on a distinctive face. Try to capture the personality of the Dwarf you are creating!

### Poisoned apple

A red apple, made from a tennis ball, will knock down your Dwarfs.

1 Paint a tennis ball red.

2 Glue on felt leaves and a stalk.
