

Archery Competition

How Brave are you? Unleash your inner Merida and stage your own Highland Games with an archery competition. This mini archery set is easy to make and is a great team game. Time to take aim!

You will need:

- Ice lolly sticks
- Bowl of water
- Needle
- Large roll of tape
- Paint or felt-tip pens
- Dental floss
- Toothpicks
- White glue
- Cotton balls
- A round box with a lid
- Paint
- Paintbrush
- Coloured paper (optional)
- Scissors
- Thick thread
- Ink (optional)
- Protective covering

Prime your bow

You could make a single bow for everyone to share, or each archer could have a personalized one.

- 1 Soak the ice lolly sticks in water for at least 30 minutes.

- 2 Ask an adult to make a hole in each end of the sticks with a needle.

- 3 Slowly bend the sticks into the inside of a large roll of tape. This will give them a curved shape.

- 4 Leave the sticks to dry inside the roll for at least an hour.

- 5 Decorate your bows with paint or felt-tip pens.

- 6 Knot one end of a piece of dental floss and thread it through one of the holes in the stick.

- 7 Wrap the floss around the stick and through the hole several times.

- 8 Once the floss is very secure, pull gently to make it taut, and thread it through the hole at the other end of the stick.

- 9 Wrap the thread around the stick and through the hole several times so it's secure, then knot it.

Prepare your arrows

Cotton swabs work well as arrows, but these plastic-free toothpicks are more environmentally friendly.

- 1 Carefully cut off one or both pointy ends of your toothpick with scissors, depending on the style.

- 2 Dip one end in glue.

- 3 Take a small piece of cotton ball and twist it around the tip.

- 4 Fluff the cotton ball to make it more round.

TRY THIS!

For a fun clan competition, each team can make up their own clan name and colours. Create a scoreboard to keep track of the winner!
