

DID YOU KNOW?
Instead of marrying the winner of the archery games as tradition dictates, Merida wins the competition herself!

Mark your target

Archery targets are round, with coloured rings and a bull's-eye in the centre. The bigger your target, the easier the game.

- 1 Paint the lid of a round cardboard box with white paint.
- 2 Add coloured rings. You could paint them or glue down rings of coloured paper.

- 3 Ask an adult to pierce two holes in the side of the main part of the box using a needle or pencil.

- 4 Push thread through the holes to make a loop for hanging.

- 5 Tie a knot in each end of the thread to secure it.

- 6 Put the lid back on the box and hang it up.

HOW TO PLAY:

Give each player paint or ink in their clan colour. Before firing, each archer dips their arrow in the paint or ink so it will leave a mark on the target. Make sure you put down a covering to protect the floor. Whoever's mark lands nearest to the centre of the target is the winner.

Dental floss is wrapped many times to make it secure.
