

Personalized Letters

Transform your bedroom with a touch of Disney Princess magic! Spell out your name with cardboard letters and embellish each one to make it even more enchanting.

You will need:

- Premade cardboard letters
- Paper
- Coloured pencils or pens
- Scissors
- Glue or double-sided tape
- Coloured paper
- Felt, jewels, sequins (optional)
- Paint and paintbrush

Make your letters

For each of these letters, a different princess has been depicted. But you can choose anything you like. These steps use premade 3D shapes, but you could also cut your letters out of flat cardstock.

1 On paper, plan out your designs. Think about the clothing, features or accessories that best represent the character you have chosen.

2 Paint each letter in a base colour. You could stick coloured paper onto each letter with glue or double-sided tape instead.
