

- 4** Fold all the pieces in half. Use the silhouette piece as a guide for the other pieces.

- 5** Glue the dress piece to the whole-body silhouette.

- 6** Attach the folded skirt pieces to each other with double-sided tape along the inside folds.

- 7** Glue the skirt pieces to the dress, matching up the folds.

Rectangular pieces keep the skirts evenly spaced.

- 8** Cut nine small rectangles of cardstock and fold them into four equal sections.

- 9** Glue one rectangle inside each fold of the skirts.

- 10** Fold a larger rectangle of cardstock in half. You could decorate it.

- 11** Glue the princess inside the card, once again matching up the centre folds.

TOP TIP
Use the dress piece as a template to trace around when you draw the four skirts.
